SURVEYOR CERTIFICATION FOR SUBDIVISION
 I, Christian L. Jones, PLS #5522, certify to one or more of the following as indicated:
 a. That this plat creates a subdivision of land within the area of a county or municipality that has an ordinance that regulates parcels of land.
 b. That this survey is located in a portion of a county or municipality that is unregulated as to an ordinance that regulates parcels of land.
 c. Any of the following:
 1. That the survey is of an existing parcel or parcels of land or one or more existing easements and does not create a new street or change an existing street. For the purposes of this subsection, an "existing parcel" or "existing easement" is an area of land described in a single, legal description or legally recorded subdivision that has been or may be legally conveyed to a new owner by deed in its existing configuration.
 2. That the survey is of an existing feature, such as a building or other structure, or natural feature, such as a watercourse.
 3. That the survey is a control survey. For the purpose of this subsection, a "control survey" is a survey that provides horizontal or vertical position data for support or control of other surveys or for mapping. A control survey, by itself, cannot be used to define or convey rights of ownership.
 4. That the survey is of a proposed easement for a public utility as defined in G.S. 62-3.
 d. That this survey is of another category, such as the recombination of existing parcels, a court-ordered survey, or other exemption or exception of the definition of subdivision.
 e. That the information available to the surveyor is such that the surveyor is unable to make a determination to the best of the surveyor's professional ability as to provisions contained in (c) through (d) above.
